Amazing to see how meaningful **stones** can turn!

A pylon made of 165 tonnes of stone

Project - Bio-diversity Summit 2012, Hyderabad

Architect - Genesis Planners Ltd

Client - S&S Green Projects

Executed by - Odyssey Stone

Duration - 40 days

Material - Black Granite, Red Granite, Etah Gold Sandstone, Jaisalmer Yellow Sandstone

Scope - Development of Bio-diversity monument

Brief - India had hosted 11th convention on Bio-diversity in Hyderabad in October, 2012. It was attended by more than 8000 delegates from 192 countries. It was decided by the architects to install a pylon depicting the evolution of life on earth in last millions of years. It is believed that life on earth has passed through several stages. Odyssey was commission to complete this prestigious project. In 2 acres, Odyssey has installed a 32 feet high Pylon at Bio-Diversity Park depicting the evolution of life from an atom to now an intelligent human being. Odyssey has procured, sawed, processed and polished 165 tonnes of stone in their production facility in Udaipur and NOIDA and shipped it for installation to Hyderabad.
